**Outcome of Yoga Course:**

Yoga is a great way to work on your flexibility and strength. Just about everyone can do it, too - it's not just for people who can touch their toes or want to meditate. Some types of yoga are about relaxation. In others, you move more. Most types focus on learning poses, called asanas. They also usually include attention to breathing.

**Yoga for Flexibility:**

Yoga poses work by stretching your muscles. They can help you move better and feel less stiff or tired. At any level of yoga, you'll probably start to notice benefits soon. In one study, people improved their flexibility by up to 35% after only 8 weeks of yoga.

**Strike a Pose for Strength:**

Some styles of yoga, such as ashtanga and power yoga, are very physical. Practicing one of these styles will help you improve muscle tone.

But even less vigorous styles of yoga, such as Iyengar or hatha, can provide strength and endurance benefits.

Many of the poses, such as downward dog, upward dog, and the plank pose, build upper-body strength. The standing poses, especially if you hold them for several long breaths, build strength in your hamstrings, quadriceps, and abs. Poses that strengthen the lower back include upward dog and the chair pose.

When done right, nearly all poses build core strength in the deep abdominal muscles.

**Better Posture From Yoga**

When you're stronger and more flexible, your posture improves.

**CONTINUE READING BELOW**

Most standing and sitting poses develop core strength, since you need your core muscles to support and maintain each pose.

With a stronger core, you're more likely to sit and stand "tall."

Yoga also helps your body awareness. That helps you notice more quickly if you're slouching or slumping, so you can adjust your posture.

**Breathing Benefits**

Yoga usually involves paying attention to your breath, which can help you relax. It may also call for specific breathing techniques.

#### **Outcome of Yoga Course:**

Yoga is a great way to work on your flexibility and strength. Just about everyone can do it, too - it's not just for people who can touch their toes or want to meditate. Some types of yoga are about relaxation. In others, you move more. Most types focus on learning poses, called asanas. They also usually include attention to breathing.

#### **Yoga for Flexibility:**

Yoga poses work by stretching your muscles. They can help you move better and feel less stiff or tired. At any level of yoga, you'll probably start to notice benefits soon. In one study, people improved their flexibility by up to 35% after only 8 weeks of yoga.

#### **Strike a Pose for Strength:**

Some styles of yoga, such as ashtanga and power yoga, are very physical. Practicing one of these styles will help you improve muscle tone.

But even less vigorous styles of yoga, such as Iyengar or hatha, can provide strength and endurance benefits.

Many of the poses, such as downward dog, upward dog, and the plank pose, build upper-body strength. The standing poses, especially if you hold them for several long breaths, build strength in your hamstrings, quadriceps, and abs. Poses that strengthen the lower back include upward dog and the chair pose.

When done right, nearly all poses build core strength in the deep abdominal muscles.

#### **Better Posture From Yoga**

When you're stronger and more flexible, your posture improves.

#### **CONTINUE READING BELOW**

Most standing and sitting poses develop core strength, since you need your core muscles to support and maintain each pose.

With a stronger core, you're more likely to sit and stand "tall."

Yoga also helps your body awareness. That helps you notice more quickly if you're slouching or slumping, so you can adjust your posture.

#### **Breathing Benefits**

Yoga usually involves paying attention to your breath, which can help you relax. It may also call for specific breathing techniques.

### **Outcome of Yoga Course:**

Yoga is a great way to work on your flexibility and strength. Just about everyone can do it, too - it's not just for people who can touch their toes or want to meditate. Some types of yoga are about relaxation. In others, you move more. Most types focus on learning poses, called asanas. They also usually include attention to breathing.

### **Yoga for Flexibility:**

Yoga poses work by stretching your muscles. They can help you move better and feel less stiff or tired. At any level of yoga, you'll probably start to notice benefits soon. In one study, people improved their flexibility by up to 35% after only 8 weeks of yoga.

### **Strike a Pose for Strength:**

Some styles of yoga, such as ashtanga and power yoga, are very physical. Practicing one of these styles will help you improve muscle tone.

But even less vigorous styles of yoga, such as Iyengar or hatha, can provide strength and endurance benefits.

Many of the poses, such as downward dog, upward dog, and the plank pose, build upper-body strength. The standing poses, especially if you hold them for several long breaths, build strength in your hamstrings, quadriceps, and abs. Poses that strengthen the lower back include upward dog and the chair pose.

When done right, nearly all poses build core strength in the deep abdominal muscles.

### **Better Posture From Yoga**

When you're stronger and more flexible, your posture improves.

#### **CONTINUE READING BELOW**

Most standing and sitting poses develop core strength, since you need your core muscles to support and maintain each pose.

With a stronger core, you're more likely to sit and stand "tall."

Yoga also helps your body awareness. That helps you notice more quickly if you're slouching or slumping, so you can adjust your posture.

### **Breathing Benefits**

Yoga usually involves paying attention to your breath, which can help you relax. It may also call for specific breathing techniques.

विषय: मोफत online 'मृदा संवर्धन' प्रमाणपत्र अभ्यासक्रमात मार्गदर्शन करणे बाबत...

महोदय,

सध्या जागतिक समस्या बनलेल्या कोरोना (COVID 19) विषाणूच्या वाढत्या प्रादुर्भावामुळे चौहीकडे संचारबंदी (लॉकडाऊन) लागू झालेली असून सर्वांना घरी बसावे लागत आहे. अशा स्थितीत विद्यार्थ्यांना घरी बसून ज्ञान संपादन करता यावे म्हणून आम्ही आमच्या महाविद्यालयातील भूगोल विभागाच्या अंतर्गत मोफत online 'मृदा संवर्धन' या विषयावर प्रमाणपत्र अभ्यासक्रम आयोजित करत आहोत.

आपण या क्षेत्रातील अनुभवी, तज्ञ व जाणकार असून आपल्या ज्ञानाचा फायदा विद्यार्थ्यांना व्हावा अशी आमची अपेक्षा असून आपण विद्यार्थ्यांना ICT चा वापर करून online मार्गदर्शन करण्यासाठी अभ्यासक्रमातील घटकाला अनुसरून लेख, PPT, व्हिडीओ, अशा स्वरूपातील साहित्य (E-Content), आपण तयार करून उपलब्ध करून देण्यात यावे व ते वापरण्याची परवानगी देण्यात यावी ही नम्र विनंती. सोबत प्रमाणपत्र तयार करण्यात आलेला अभ्यासक्रम पाठवीत आहे.

आपल्या सकारात्मक प्रतिसादाच्या प्रतिक्षेत...
